

*'Learning about the
lives of others from
across the world'*

New Delhi Curriculum Project 2018

The work the DSAT group of schools is involved in with the Asha charity is going from strength to strength. It is so exciting to see how this project is impacting on children's learning not only within Kibworth Primary School but now also across the Discovery Schools Trust. This year Miss Hancock will be one of 26 members of staff from across the trust who have self funded their visits in order to find out more about how we can work together.

This year on Friday 5th October the whole school will be planning exciting learning opportunities and we hope to Skype some of the children in New Delhi. Asha is not just a charity but an organisation renowned world wide for the inspirational work it does in providing families living in the slums of Delhi with the skills and resources to better their lives. One of these key elements is education. The important message we want children to learn from the work of Asha is that education is transformational and opens so many opportunities. If you visit the Asha website there are regular updates and stories about young adults who have been given the chance to receive an education resulting in employment and success.

The aim of our whole school sponsored run is for the school to run the equivalent miles from London to New Delhi. 4000 miles! A sponsor form is attached to this letter. We welcome adults to come and run with us on this day too— we will be starting at 9:30am. Please come along and cheer us on.

The work we are doing with Asha is so much more than charity. We are learning from others and our children are being inspired about the impact of education and that everyone can make a difference to their lives regardless of religion, race or gender.

"Asha" means "hope" in Hindi. Asha gives people living in slum areas hope by allowing them to realise their potential, regardless of their background, or religious beliefs.

Please visit their website to find out more: <http://asha-india.org/about-us/>
